short version

## About Cyber Valley

### Short

Cyber Valley is Europe's largest and leading center for excellence in artificial intelligence and modern robotics. Its mission and public mandate are to advocate for research, development, application, and acceptance of technologies and methods in the field of intelligent systems. Cyber Valley encourages entrepreneurship by uniting scientific excellence with innovation and technology transfer. In addition, Cyber Valley facilitates critical reflection on the ethical and social implications of AI through public engagement. Cyber Valley envisions a future in which the full potential of intelligent systems is leveraged for the greater good of the world.

The **Cyber Valley Community** is a network of AI researchers, entrepreneurs, investors, and start-ups, alongside partners from academia, industry, and society. **Cyber Valley GmbH** is owned by the State of Baden-Württemberg and the Max Planck Gesellschaft. It acts as the service provider, central organizer, and host for the Cyber Valley Community. While Cyber Valley GmbH is located in Stuttgart and Tübingen, it operates across Baden-Württemberg with a global reach, attracting the best talent from across the world to create the future with AI.

## About Cyber Valley

Cyber Valley is Europe's largest and leading center for excellence in artificial intelligence and modern robotics. Its mission and public mandate are to advocate for research, development, application, and acceptance of technologies and methods in the field of intelligent systems. Cyber Valley encourages entrepreneurship by uniting scientific excellence with innovation and technology transfer. In addition, Cyber Valley facilitates critical reflection on the ethical and social implications of AI through public engagement. Cyber Valley envisions a future in which the full potential of intelligent systems is leveraged for the greater good of the world.

The **Cyber Valley Community** is a network of AI researchers, entrepreneurs, investors, and start-ups, alongside partners from academia, industry, and society. **Cyber Valley GmbH** is owned by the State of Baden-Württemberg and the Max Planck Gesellschaft. It acts as the service provider, central organizer, and host for the Cyber Valley Community. While Cyber Valley GmbH is located in Stuttgart and Tübingen, it operates across Baden-Württemberg with a global reach, attracting the best talent from across the world to create the future with AI. The company is not itself active in scientific research but supports the Cyber Valley Community through business development, communication, and coordination services.

Cyber Valley has three membership tracks: Founders, Partners, and Friends. The **Cyber Valley Founders** are Amazon, BMW AG, IAV GmbH, Max Planck Society, Mercedes-Benz Group AG, Dr. Ing. h.c. F. Porsche AG, Robert Bosch GmbH, ZF Friedrichshafen AG, the University of Stuttgart, the University of Tübingen, and Fraunhofer Gesellschaft. **Cyber Valley Partners** are companies and foundations that make significant financial contributions towards the activities of Cyber Valley, including the Carl-Zeiss-Stiftung, Christian Bürkert Foundation, the Gips-Schüle-Stiftung, and the Vector Stiftung. **Cyber Valley Friends** are free, entry-level members. They receive benefits such as information exchange, management support, access to talent connections, and participation in public engagement activities.

Cyber Valley is a key player in the global discourse on AI. In 2018, the company co-initiated ELLIS (the European Laboratory for Learning and Intelligent Systems), a European network for AI research that connects leading AI research institutions from across Europe. In January 2024 it will participate in AI House Davos at the World Economic Forum.
